

Gate Sentry

Mobile App User Guide

App is available on the App Store or Google Play Store.

Host Profile

Choose a 4-number secret code – can be used to verify your identity.

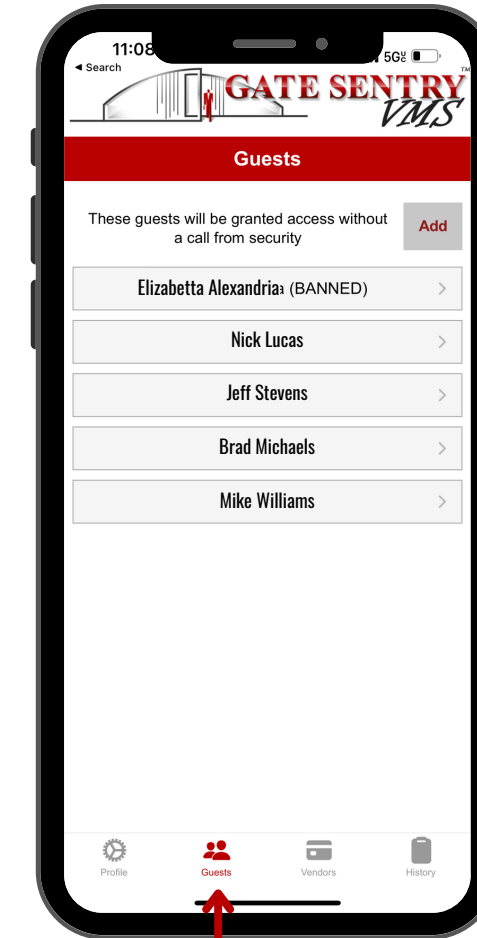

Tap host name to edit information (name, email, and notifications).

Contacts are individuals authorized to grant access, in priority order. Tap to add contacts.

Hit the 'New' button to add more hosts [a host is a resident, member, or employee within the account].

Guests & Vendors

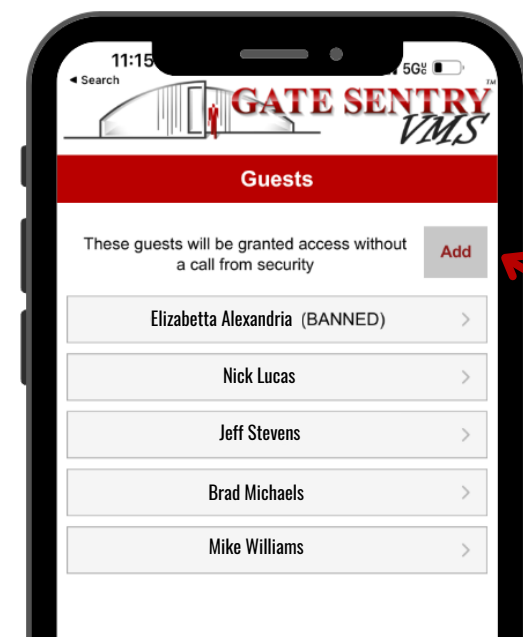

Tap to see list of authorized Guests

Tap to see list of authorized Vendors

Adding Guests

To add a guest, go to the guest section, then tap the 'Add' button

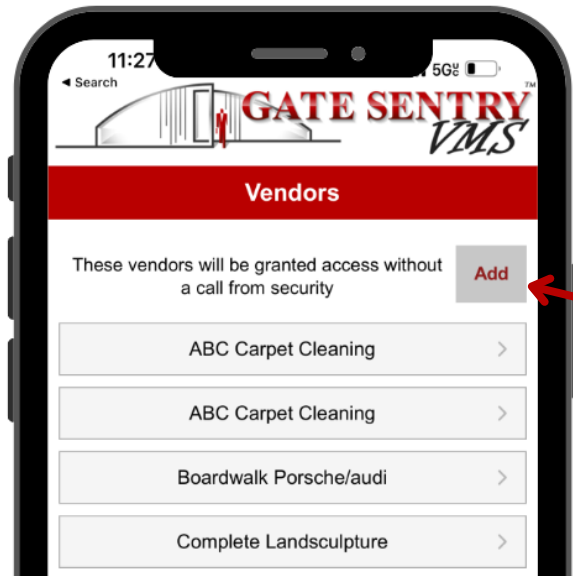

Include guests first and last name

- **Permanent**– on list until you remove them
- **Temporary**– on list for dates specified, removed automatically
- **Banned**– restricted from entry

Adding Vendors

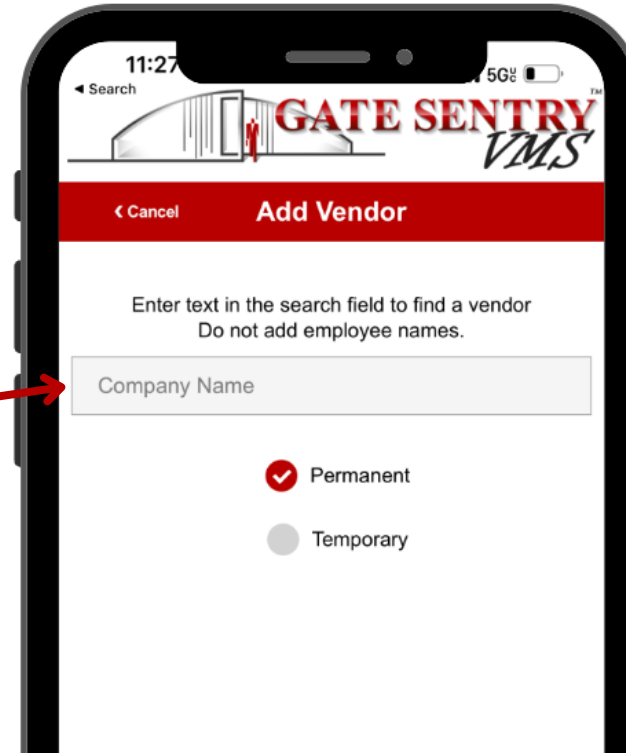

(cleaners, landscapers, etc.)

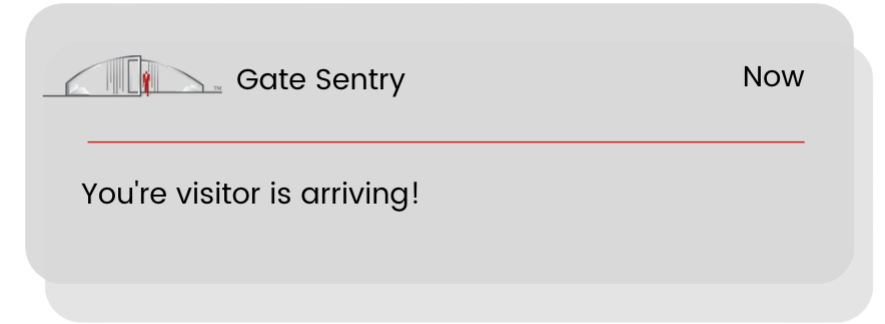

To add a vendor, go to the vendor section, then tap the 'Add' button

Search for an existing vendor before adding a new vendor

Only list company name
